November 4, 2015

MEMORANDUM FOR: Historic Resources Board

From: Committee Chairwoman
Patty Vaccariello

Subj: The Sally Wong Building

At the November 2, 2015 meeting of the City Heights Area Planning Committee we heard an update on the Sally Wong building from Civic San Diego staff including the upcoming November 20th meeting to consider historic designation for the site. The Committee had been provided a copy of the two reports to the HRB, written by city staff, prior to our meeting. After a lengthy discussion regarding the staff recommendation not to designate this property it was moved and seconded that "the Sally Wong building portion (4102 – 08 University) be preserved and designated under the first survey, and incorporated into future development". This is the portion of the building closest to 41st Street. The motion passed 12/0/0 (chair not voting).
